

Data Sharing Policy

Complying with the requirements of ICMJE' Data Sharing Statement (<https://www.icmje.org/icmje-recommendations.pdf>), Chinese Journal of Cancer Research (CJCR) strongly encourages that all research data on which the conclusions of the paper rely should be available to readers. CJCR establishes a Featured Data Community in Science DB and recommends authors to deposit their datasets in <https://www.scidb.cn/c/CJCR>, or other publicly available repositories.

Questions	Authors' response
Manuscript Title	Early Prediction of Synergistic Cardiotoxicity Caused by PD-1 Inhibitor and Doxorubicin Using Cardiac [18F]FDG PET/MRI
First Author	Yuqi Cai, Tingting Yuan, Xiaoxia Xu
Does your manuscript use ONLY data from a publicly available database? If "Yes," please specify the database; no additional information is needed. If "No," please complete the following questions.	No
Will the data collected for your study be made available to others? (If "No," offer context for your decision)	Yes
Which data are available?	The raw PET/MRI data, strain measurements, and related clinical information of participants can be shared, provided they are anonymized to protect participant privacy and comply with ethical standards.
Additional information about the data	No
How or where can the data be obtained? (e.g., Email address, URL of CJCR's Featured Data Community in Science DB, or other	Emails could be sent to the address below to obtain the shared data: xuejuan_wang@hotmail.com.

repositories)	
When will data availability begin and end? (e.g., M/D/Y to M/D/Y)	The data will be available from the date of publication for a period of 5 years from the date of publication.
Will any supporting documents be available?	Yes
Which supporting documents are available?	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
Additional information about the supporting documents	No
How or where can supporting documents be obtained? (e.g., Email address, URL of CJCR's Featured Data Community in Science DB, or other repositories)	Emails could be sent to the address below to obtain the supporting documents: xuejuan_wang@hotmail.com.
When will supporting documents availability begin and end? (e.g., M/D/Y to M/D/Y)	The data will be available from the date of publication for a period of years from the date of publication.
To whom will data be available?	Cardiologists and researchers interested in treatment related cardiotoxicity.
For what type of analysis or purpose?	The data will be shared for research purposes, including validation of ¹⁸ F-PET/MRI parameters and further studies on cardiotoxicity.
By what mechanism?	Email
Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
Additional information	No
